We provide high-quality, simple and efficient Self-Managed Super Fund (SMSF) administration services to trustees, accountants and advisers.

We specialise in administering SMSF year-end accounts including tax return lodgment and audit to maintain your SMSF as a 'complying' superannuation fund

We use CLASS Super as our online cloud-based software. This provides trustees with the ability to access up to date information 24/7 via Client View allowing them to make informed investment decisions.

We provide a fixed fee, giving trustees peace of mind that there will be no nasty surprises at the end of the financial year.
